ML 12: LIQUID RUST AND STAIN REMOVER AND METAL BRIGHTENER

DESCRIPTION

ML 12. is a concentrated combination of wetting agents, acid and solvents designed to reduce shipboard maintenance costs . This quality prod rust removes bleeding rust from paintwork on deck . in pump rooms and engine room s . Suitable for cleaning aluminum . stainless steel , and de rusting metal parts . tools , Painted surfaces etc. It can also be used to treat steel before painting providing an ideal base . Excellent for cleaning wooden decks . ML 12.can also be used in conjunction with the ML 12. “Foam and clean “ applicator. ML 12.can be foamed on for ease of application and will give longer contact with the soil for more complete cleaning .

DIRECTIONS FOR USE

Depending on the degree of rust , prepare solution of 1 part ML 12.added to 4-6 parts of fresh water . Apply to rust. Give solution approximately 15 minutes to penetrate and dissolve rust . Flush surface with fresh water .

Usually one application will leave surface entirely free of rust , giving the painted surface a bright . freshly painted appearance . When using the “ Foam and clean “ applicator , mix 1 part ML 12.to 1 part water .

PRECAUTIONS

As in working with any acid , precaution should be exercised to avoid prolonged contact with skin . If contact is made with eyes . Flush with water and seek medical attention . See additional precautions on drum label .

SPECIFICATIONS

Form : A blend of selected solvents and emulsifiers .

Flash point : 85 C . (180 F) C . 0 . C .

Stability : Stable after repeated freeze-thaw cycles .

Weight : Approximately 1 . 1 kg per liter or 9 . 0 lbs . per U . S . gallon .
