## ML 15: GENERATOR CLEANER

### ( LOW COST ELECTRIC CLEANER )

ML 15. is a product specially designed to be used in application requiring deep penetration and a moderate evaporation rate. It is economical to use on large motors, Generators, and electrical apparatus as well as smaller equipment. ML 15 . is a blend of special aromatic and chlorinated solvents containing no dangerous and toxic carbon tetrachloride.

### ADVANTAGES

1. Low toxicity Maximum allowable concentration ( MAC ) 500 ppm.
2. No flash point to boiling point.
3. Highly effective cleaning power. Deep penetration.
4. Safe for electrical apparatus, varnish. Insulation and personnel.

True economy due to the controlled evaporation rate that allows flushing to be completed before the product evaporates.

ML 15. may be used in dip, wipe or spray application ( using minimum air ) for cleaning all equipment. It is non-corrosive to all metal parts, including aluminum. ML 15. is not harmful to insulating varnishes.

### PRECAUTIONS

Avoid prolonged or repeated contact with the skin, Use in a well-ventilated area and keep away from open flames. See additional precautions on drum label.

CAUTION : unsealed storage will cause loss of chlorinated solvents by evaporation lowering the flash point of the remaining solution. Keep tightly closed.

See additional cautions on container label.

### SPECIFICATIONS :

Form : A clear. Pale yellow liquid.

COMPOSITION : A blend of selected solvents.

FALSH POINT : None ( As received ) C.O.C.

STABLITY : Stable after repeated freeze- thaw eyeless.
